

VOLBEATZ

Volbeatz travels with of their own FOH-mixer, in-ear monitoring system and can use their own stage multi's if needed. In case our own sound engineer is unavailable, we will need a "1-on-1" XLR out split of all microphone channels. If this isn't possible for whatever reason all microphones will need to be plugged in, in our monitor rack and we will provide a link cable into the sound system. Volbeatz does NOT bring any lights, microphones (unless stated otherwise), PA or any other technical equipment.

HOSPITALITY RIDER

DRESSING ROOM

There must be a lockable, heated dressing room in close proximity to the stage with at least:

- hot and cold water taps
- 12x 0.5 liter bottles of water
- stocked refrigerator containing beer, soft drinks (cola, orange juice, etc.)
- 1 bottle of "Jack Daniels Honey"
- coffee & tea facilities
- finger food (snacks & fresh fruit)
- chairs with a table (at least 8 chairs)
- enough water for on stage, preferably in small bottles

A key to this dressing room should be handed over to a band or crew member to be determined on-site.

CATERING

If the organisation requires Volbeatz to be present before 8:00 PM, the client must provide a meal that meets the standards of a good meal (no fast-food or similar). If the client cannot or does not want to provide this for the band & crew, the organisation can buy it out for €22,50 per person. These costs will be invoiced to the organization afterwards.

- At arrival of the band we're glad with a cup of coffee, some soft drinks and/or a beer.
- We are traveling with a party of 5 bandmembers and 3 crewmembers.

AFTER THE SHOW

Putting on a show like Volbeatz is like playing sports, so after the show, we'd appreciate receiving a "midnight snack" and the necessary caffeinated beverages (coffee, Coca Cola, Red Bull, etc.) for the journey back.

TRANSPORTATION

Volbeatz travels with 5 cars and one small van. The organisation will have to provide at least 4 parking spaces, 2 of which close to the stage.
